Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear as to which dressing wheel component you are referring to, since you have claimed a first and second dressing wheel component in claim 9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 and 6-11 and 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Liao et al.

Liao teaches a dressing wheel component including at least one cutter, (col. 2, line 39), interrupted cutting outer surface wherein the interrupted surface, 200a, is

Art Unit: 3723

embodied in a cutting wheel, 20, with a plurality of flat tips, 200, extending outwardly from the outer surface. Liao teaches that the grinding wheel further comprises additional dressing wheel components, which are flat grinding surfaces, adjacent to and surrounding the interrupted cutting outer surface. (The examiner notes that each flat tip, 200, is considered to be a dressing wheel component that is adjacent to and surrounding the interrupted cutting outer surfaces, 200a). Liao also teaches that the flat grinding surfaces comprise diamonds, 30.

The examiner notes that claims call for a dressing wheel suitable for dressing a grinding wheel, and by using that terminology, the claims don't actually claim the grinding wheel, and thus merely claim a copper cutting wheel that is suitable or capable for dressing a grinding wheel.

Allowable Subject Matter

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16-20 are allowed.

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shantese L. McDonald whose telephone number is (571) 272-4486. The examiner can normally be reached on 8:00 a.m. - 4:30 p.m..
